COMMERCIAL INTELLIGENCE

THURSDAY EVENING, OCTOBER 9.

WITH the Dewali holidays approaching, and no improvement in the market advices from home, business here continues as dull and inactive as ever. In imports, transactions are perhaps on an average scale for the time of year, but in exports one article of produce is only duller than another, and the depression in ready freights consequently continues. For Liverpool 13s. 9d. to 20s. continue the ready rates, and for Continental Ports 17s. 6d. to 20s. per ton, with but a limited amount of cargo offering at that. Sterling Exchange is steady without fluctuation. Government Paper is quiet and inactive. Shares are firm, with the exception of Spinning and Weaving Mills, the improvement in which has been checked by the war-like news from China.

MONEY.—The return of the Bank of Bombay for the week ending on Saturday last showed no changes of material importance, and the outside market remains in practically the same position. For regular trade purposes the demand for money is slack to a degree, and will in all probability continue so until after the turn of the year, but the large and increasing stocks of Goods and Yearns in the hands of our local Mills is causing a considerable look-up of funds, and should no alteration take place in this respect before our export season opens, we may look for rates of discount then being pushed up somewhat rapidly. Meantime the official minimum of the Bank of Bombay remains at 4 per cent., and outside, we should say, 3 per cent. on Government Paper and 5 to 6 per cent. on other securities were the ruling rates.

EXCHANGE.—Sterling has been very steady throughout the week, and to begin with had rather a hardening appearance, but just at the close the tendency is quieter again. For last steamer closing quotations were 1s. 7 17-32d. for demand Bank and 1s. 7 23-32d. for 3 months' Credit bills, but with Bar Silver up to 50¼d., and money in London apparently tending dearer, we opened on Saturday last for this mail at 1-32d. advance on these figures, which have remained the ruling quotations throughout. To-day the market has been, if anything, easier, although rates are unaltered, and we quote ready bills as follows :—

Bank Bills on demand		...1s. 7d.	per rupee.
Do.	Telegraphic	...1s. 7d.	,,
Do.	Three Months Sight	..1s. 7d.	,,
Credits,	do. do.	do. ...1s. 7d.	,,
Do.	Six do.	do. ...1s. 7d.	,,
Private	Three do.	do. ..2 0d.	,,
Do.	Six do.	do. ..2 0	,,

For delivery all this month quotations are the same as for ready paper, up to the end of the year 1-32d. advance and again 1-32d. higher for January-February, but the Banks are rather more disposed to buy than sell to-day at this level. Nor can we look for any advance in exchange so long as our export trade continues in its present depressed state, as the demand for remittance against imports at the moment is almost equal to the export bills making, not to speak of the regular supply of Council drafts and imports of bullion.

At the weekly biddings for Councils in London yesterday, only Rs. 60,000 in bills and Rs. 3,50,000 in telegraphic transfer found buyers at 1s. 7 9-16d., showing that last week's takings of 15 lacs by telegraphic on Calcutta at the same rate was an exceptional transaction. The shipments of bullion advised by yesterday's telegrams from London are £50,000 in Silver and £30,000 in Gold for Bombay and £20,000 in Silver for Calcutta. These amounts are not large certainly, still they indicate a better supply of Silver at its present value than private advices would have led us to believe.

GOVERNMENT PAPER.—After some slight fluctuations, rates close at about the level of a week ago. Fours opened at Rs. 99 1-16, and on Saturday receded to Rs. 99 sellers. On Monday, however, an improved tone was manifested, and the quotation was advanced to Rs. 99½, which remained the current rate till yesterday, when we went back to Rs. 99 to 1-16, at which we close to-day with a quiet market. Fours-and-a half opened at Rs. 102½, but during the week hardened up to Rs. 103¼ at which they close very steady.

SHARES.—The general tone of the market has been fairly steady this week, and except for *Spinning Mill* shares many movements in prices have been upwards. Mill shares showed considerable firmness for a few days after the departure of last mail, and values advanced materially, but the more war-like telegrams latterly have induced a quieter feeling, and a portion of the advance has been lost. Still, with a few exceptions, the result in most instances of the week's fluctuations has been in favour of holders. We note an advance of Rs. 75 in Madras United, Rs. 40 in Budneira, Mahalukshmi, and Sholapore, Rs. 30 in Coorla, Rs. 25 in Southern India, Rs. 20 in Great Eastern, Rs. 12½ in Prince of Wales, Rs. 10 in Albert Edward, and Bombay United, Rs. 5 in Coorla, Framjee Petit, Jewraz Balloo, Khandalla, Great Eastern and Parell, Rs. 3 in Leopold, Rs. 2 in Anglo-Indian. The exceptions are, Rs. 40 in Gordon, Rs 25 in National, Rs. 20 in Dhurrumsey and Manockjee Petit, rise on the week of Rs. 100 in Bombay, Rs. 50 in Fort, Rs. 25 in Albert, Rs 10 in Prince of Wales, and Rs. 2½ in Mofussils and NewIndian. In *Banks* the only change is in Bank of Bombays, which have advanced Rs. 6¼ to Rs. 7 6¼ buyers. Nationals are Rs. 99 Amongst *Miscellaneous* Companies the chief movement has been in Bombay-Burmah Trading Co., which are Rs. 150 higher in old, Rs. 25 in new shares. Ice Co. are Rs. 3 to Rs 4. higher.

IMPORTS.

PIECE-GOODS.—With the approach of the Dewali, dealers have begun to restrict their operations in anticipation of the close of their business year, and this, combined with the somewhat undecided position of the Manchester market, has rendered business from first hands extremely quiet.

From the bazaar, however, clearances, all things considered, have been on a full average scale, being estimated at about 3,500 packages, and prices, as a general rule, are well supported. In the Gray Goods, Shirtings have not moved so freely as was expected, the heavy rains having restricted the demand for the Cawnpore market. In American Drills a large business has again been done at a further concession of about one anna per piece on the part of sellers. Of Bleached Goods the offtake has been moderately good, mainly in Jacconets and Mulls. Turkey Reds are in fair request, but other Dyed and Printed Cloths are difficult of sale.

YARN.—Imported Yarns are dull, but no change can be made in prices. Local Yarns are weaker again owing to the adverse China news, and the sales are only estimated at about 1,200 bales, effected by accepting a further reduction of 1-16th to ¼ anna per lb. Stocks in the hands of the Mills are still increasing, and a few weeks longer of the existing state of things will compel a resort to shortime.

METALS.—*Copper.*—With higher prices from home the market here is somewhat firmer as regards tone, but buyers are not willing to pay any advance. *Yellow Metal* is steady at previous prices. *Iron* is rather firmer but not active.

COALS.—Consumers continue to operate very sparingly, but the depression in homeward freights keeps sellers out of the market, and values to arrive still show an upward tendency. Cardiff to arrive has been sold at Rs. 17 to Rs. 17¼ for ordinary quality, and Rs. 17¾ for Nixon's Navigation, Davison's West Hartley at Rs. 17 per ton alongside.

EXPORTS.

COTTON.—Liverpool telegrams in the early part of the week were firm in tone, inducing an advance in prices here of Rs. 2 to Rs. 3 per candy, but within the past three days the accounts have again been unfavourable and the rise has been lost, our quotations, as given below, being practically the same as a week ago. The local Mills continue to be fairly steady buyers, but for export transactions have been very limited, probably not more than 1,500 bales of old and 1,000 bales of new. The former is mainly made up of Bhownuggers at Rs. 170 to Rs. 181 for F. G. F. and Good native selection, but well up Cotton would bring Rs. 3 to Rs. 4 per candy over these figures. In new crops, Bengals at Rs. 146 to Rs. 148 for Good, and Rs. 150 to Rs. 152 for Fully Good have been the bulk of the business.

New Crop reports in the aggregate may be called fairly satisfactory. Bengals will suffer to some extent both in quantity and quality from the late rains, but in other districts, with fine weather henceforward, prospects are fairly good, promising a yield fully up to last season. It is too early yet, however, to put estimates into figures, as very much depends on the weather of the next few weeks. The crop is certainly late, and very little new Cotton, except Bengal, will be forthcoming before the end of the year.

The movements of Cotton to date show the following comparisons with the two previous years :—

WHEAT.—Supplies are increasing, but home advices continue most discouraging, and the extent of new business going forward is very limited. Prices are about the same as quoted for last mail, say :—No. 1 White Pessy Rs. 2-8-8, No. 2 Rs. 24 to Rs. 24 8, Jubbulpore Rs. 22 to Rs. 22 8, Ahmedabad Rs. 21-8 to Rs. 22, Khatha Rs. 19 to Rs. 19-8 per candy. SEEDS.—*Linseed* continues in good demand, but arrivals from up-country are small and restrict business to a very limited compass. The quotation today is Rs. 6-2 per cwt. buyers. Arrivals are as follows :—

Rapeseed is quiet. Old Yellow Guzerat is quoted nominally at Rs. 6-15 to Rs. 7, and New for April delivery at Rs. 6-11 to Rs. 6-12 per cwt. *Gingelly* is now arriving in small parcels. For December delivery we quote White Rs. 37 to Rs. 37-8, Mixed Rs. 36 to Rs. 37, Red Rs. 35 to Rs. 36 per candy.

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight; and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Menist, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye which so frequently are needed.

The Bombay Gazette

FRIDAY, OCTOBER 10, 1884.

THE news from Tongking to-day, though it tells of fighting upon apparently a small scale, is still highly significant in regard to the position of the French in the Delta of the Red River. Fighting, it is stated in a telegram from Haiphong, has been renewed beyond Bacninh. The French, who lost about a score men in killed and wounded, were victorious, and they continue their advance towards the frontier. The meaning of this intelligence is obvious. The French, we now know for the first time, are strong enough—or sufficiently trustful of their strength—to emerge from the earthworks of Bacninh, despite the fact that two, if not three, Chinese forces were preparing to concentrate upon that point. Apparently they have not given the Kwangsi and Kwangtung columns time to effect a junction, and no doubt the force garrisoning Bacuinh is sufficient to withstand any attack which may be made upon it by the Kwangsi force, should this latter Chinese frontier [illegible] advance towards de l'Isle is making is, no doubt, General Brière Bac-le and Langson road, the road by [illegible] Colonel Dugenne was proceeding when [illegible] known as the Langson incident aver[illegible] progress. It argues no lit[illegible] part that he should advance into a hostile country with what must at the most be a small and a weakened force. He counts, probably, as much upon his own strength as upon the incapacity of his antagonists. This is obviously very great. The three columns which the Chinese have sent across the Tongking frontier are believed to number in the aggregate not fewer than th

THE DUKE AND DUCHESS OF CONNAUGHT IN KASHMERE.

(FROM OUR OWN CORRESPONDENT.)

SHRINUGGUR, OCT. 9.

Their Royal Highnesses the Duke and Duchess of Connaught arrived at twenty minutes past five this afternoon. They were accompanied by Colonel Sir Oliver St. John, the Resident, Lord Downe, Mr. Hercules Ross, and Captain Ward. Their Royal Highnesses landed under a royal salute of 31 guns at the Mardi Palace, where they were met by the Governor of Kashmere. A guard of honour was furnished by a regiment of the Maharajah's troops. The party arrived in four State barges rowed by forty rowers each, in crimson coats and topies. The scene was very picturesque. Crowds lined both banks of the river; but as the Kashmerees know not how to cheer their Royal Highnesses were received in respectful silence.

To-morrow the Dal or City Lake will be visited, and tiffin will be served at the Nishat bagh, on the banks of the lake. The party dined with the Resident in the evening. They leave for shooting on Saturday.

RANGOON, OCT. 9.

UNWARRANTABLE ARREST OF A EUROPEAN.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, OCT. 9.

An indignant telegram from Purneah published by the *Indian Daily News* complains of an outrage on an indigo planter, Mr. Richard Walker, by a native sub-inspector of police who went to his factory with five constables, arrested him without a warrant, and forcibly removed him to Purneah. The allegation was that Mr. Walker was in possession of a buffalo alleged to have been stolen by his cowherd. On the case coming before a magistrate Mr. Walker was exonerated, and the inspector suspended, pending investigation of the charge brought against him by Mr. Walker under section 220 of the Penal Code. A good deal of feeling has been aroused among Europeans of the district at the manner in which Mr. Walker has been treated.

WE understand that the Bombay Presidency Association has received a telegram from the Secretary of State for India, in reply to the second petition addressed to Her Majesty the Queen-Empress, to the effect that Her Majesty has been graciously pleased to accept the petition, and that it will be duly laid before Parliament.

THE Maxwell Challenge Cup, which has been presented for competition by Mr. Hamilton Maxwell, having been won for three years in succession won by H. Company—one of the Poona Companies—of the Bombay Volunteers, has now become the property of that Company. Major Wyer has kindly replaced the cup, and it is to be shot for on the same conditions as the Maxwell Cup, with the exception that the competition must be shot off at the Bombay ranges.

BABOO PROTAP CHUNDER ROY, the secretary of the D tavya Bharata Karyalaya, Calcutta, has received Rs. 2,500 from the Government of Bombay, in aid of the English translation of the Mahabharata which he is publishing.

MIRZA AGA SECUNDER, a Mogul, was yesterday hanged at Oomercarry gaol for the murder of a Mogul merchant and his wife in June last. He confessed his guilt, but declared the murders unpremeditated. When the death warrant was read in his presence, he laughed outright; but when on the scaffold, his demeanour changed, and he hurriedly shouted to the crowd outside to pray for him, adding that he died for the wife whom he failed to obtain.

WITH the advent of dry weather there has been a considerable decrease in the mortality from cholera in Bombay. During the week ending the 7th inst. there were only five deaths against twenty-one in the preceding week, twelve in the corresponding week of last year, and a mean of six in the corresponding weeks of the past five years.

THE Elephant Island buoy off Karwar has now been replaced in position.

YESTERDAY'S *Bombay Government Gazette* contains a hydrographical note by Lieutenant Johnson, of H. M. S. Arab, with reference to the buoys placed on the reefs at the entrance of Zeyla, in the Gulf of Aden. Vessels bound for Zeyla can either make Efat Shoal Buoy or the Filfil Shoal Buoy, and if the weather is clear the town will be seen before getting up to the buoys. Efat Shoal Buoy should be passed to the eastward and Filfil Shoal Buoy to the westward, giving Channel Reef Buoy a berth of half-a-mile on either side. The directions given in the Gulf of Aden Pilot will then suffice. If the Channel Reef Buoy be washed away, great care is necessary in passing the reef, as it is difficult to distinguish and steep-to, and seems to be of larger dimensions than those given in the Gulf of Aden Pilot.

YESTERDAY'S *Government Gazette* notifies the appointment of the Rev. C. Kirk, M.A., Chaplain of Rajkot, to the Chaplaincy of Byculla, during the absence of the Rev. A. L. Onslow.

THE Commissioner in Sind has been authorised to exercise, subject to Government, the chief control in matters relating to sea customs in that province.

MR. P. S. V. FITZGERALD has taken charge of the office of Joint-Administrator of Sangli from Lieutenant-Colonel Waller, V.C., who has been allowed a year's furlough.

THERE have been several changes in the Judicial Department lately. Mr. E. McG. H. Fulton has been removed from Surat to Nasik, where he has received charge of the office of the Judge and Sessions Judge from Mr. M. B. Baker. Mr. J. L. Johnston, Judge of Kanara, and Mr. C. B. Izon, Judge and Sessions Judge, have been permitted to return to duty within the period of their leave.

DURING the absence of Colonel C. F. Boulton, Colonel R. R. Wallace will act as Collector and Magistrate of the District of Kurrachee; Lieutenant-Colonel R. J. Crawford as Collector and Magistrate of the District of Shikarpore; and Mr. H. E. Watson as Deputy Commissioner, Thar and Parkar.

MR. H. E. WINTER, C. S., took eight months' furlough from the date of the reversion of Mr. A. Steward, C. S., to Forest Settlement duty in the Poona district.

MR. W. P. SYMONDS, C. S., has been appointed to act as a member of the Civil and Military Examination Committee during the absence of Mr. J. Monteath, C. S.

A STATEMENT by Mr. R. N. Coghlan, Collector of Customs, Kurrachee, showing the amount of wheat shipped from ports in Sind to foreign external ports and foreign Indian ports during the month of August, is published in yesterday's *Government Gazette*. The shipments consisted of 475,177 cwts., the total value being Rs. 19,91,673.

THE Commissioners of the town of Ilkal, Kaladgi district, have applied to Government for a loan of Rs. 2,000 from provincial funds at 4½ per cent. The loan is required, to supplement Rs. 12,847 already paid to the credit of the Executive Engineer for building an embankment to protect the town against floods, in consequence of which injury to movable and immoveable property to the extent of Rs. 30,000 was caused during the rains of 1882.

THE Bombay Presidency Season Reports for the week ending October 7 are summarised as follows in yesterday's *Government Gazette*:—"Rain throughout the Deccan and Southern Maratha Country; more urgently wanted in several places. General prospects unchanged. Kharif harvest in progress in Sind, Kutch, Kattra, Khandesh, and Ratnagiri; rabi being sown in parts of seven districts. Fever general; cholera, small-pox, and cattle-disease in parts of several districts."

THE Council of the United Service Institution of India have chosen as the subject for their Gold Medal Essay, 1884-85, the following:—"The Defence of India: external and internal. To include a consideration of the measures necessary for the preservation of order in India under all circumstances, and of the offensive and defensive measures necessary to meet an attack on Afghanistan or India from the North and West."

IT is announced that the military authorities are preparing to place the Clyde at the disposal of His Excellency the Viceroy and party for the trip home from Bombay in December.

THE assay value of coins and bullion received in the Indian mints during the first five months of the current financial year was Rs. 2,19,85,075, and of that coined and examined Rs. 2,46,00,085.

ON the 24th of this month the well-known Jewish Baronet, Sir Moses Montefiore, will complete his 100th year, having been born at Leghorn on the 24th of October, 1784. The Jews in London propose to celebrate the event by building a large synagogue in his honour.

A MAJORITY of the judges of the Calcutta High Court have recommended the Supreme Government to constitute the Administrator-General of Bengal the sole authorised intermediary for dealing with the estates of deceased persons. But the opinions of the dissenting minority are awaited before any further action can be taken in the matter.

By the passing of the Marine Act the Indian Marine Service has been brought under the control of the Governor-General in Council. Hitherto, the members of the Indian Marine Service were in the anomalous position of being under no law at all. They were amenable neither to the Act for the Government of the Navy, nor to those of the Merchant Service, nor to the laws and regulations of the Government of India, which consequently could only maintain discipline by means of dismissal, and the frequency of this sentence among the notifications having a reference to the Indian Marine showed how inadequate and unsatisfactory a means it was. Now, however, the Governor-General in Council is empowered to make laws for all persons "serving in or belonging to Her Majesty's Indian Marine Service" in Indian waters, from the Cape of Good Hope to the Straits of Magellan.

DISCUSSING the probabilities of an attack upon Colonel Ridgeway's party, the Allahabad paper says:—"We do not, as a matter of fact, think it likely that the mission will be attacked at any point on their route from the Helmund to the Tejend, now that it has been decided to skirt the Persian frontier throughout the journey; but the temper of the Turkomans is uncertain, and the Afghan authorities are doing wisely in furnishing a fairly large escort to supplement that sent from India. Whatever Abdul Rahman's secret policy may be, he cannot afford, at present, to risk a rupture with the Indian Government by allowing their representatives to be molested when they are really engaged upon work intended materially to advance his own interests."

THE Calcutta papers expressvery strong opinion regarding the disaster on the Eastern Bengals Railway. The *Indian Daily News* seems to think that the accident is attributable not so much to the negligence or carelessness of the train officials as to a false system of economy which has lately been introduced on the railway. "The substitution of inexperienced for experienced supervision," it remarks, "is a mistake about which condemnation cannot be too strong. Then, again, it was not long ago that for the sake of economy, assistant station masters were disallowed during the busy season. Economy is, no doubt, creditable; but there is one great point which the chiefs of such an undertaking should bear constantly in mind. We may give it in the words of an engine-driver of another Railway:—'It is not in human nature to work day and night without relief.' The points to which we have drawn attention are, we take it, of moment to the railway management itself, quite as much as to the public, and they seem to us to render a special inquiry necessary."

THE Allahabad paper complains that the following which have recently appeared in a Calcutta contemporary regarding scarcity in Boorbhoom, and the action Government has taken to relieve it, are altogether incorrect. It admits that a partial failure of the crops has occurred within a limited area, and that certain classes of the people have suffered more or less pressure in consequence; but to tide them through, relief-works have been started, and the wages paid for such work have been the "full wages" prescribed by the Famine Code. Prices in the locality are still moderate, rice selling at 13 standard seers to the rupee, and indian-corn so cheap as to be obtainable at 36 standard seers to the rupee. The supply of food is said to be plentiful, and the local staff to have been largely strengthened to meet the demand for labour. This of itself, says the *Pioneer*, is sufficient to show that statements imputing to Government either carelessness or any indifference to the demands of the crisis "do not contain a syllable of truth."

THE proposal for a Chief Court of Appeal for British Burmah has at last been formulated, and now only awaits the approval of the Financial Department before transmission to the Secretary of State. The Bench recommended will consist of two Recorders and the Judicial Commissioner: the latter, however, retaining his jurisdiction over the law courts of the interior. "To say nothing," remarks the *Pioneer*, "about the judicial work of Burmah having outgrown the strength of the available tribunals, the constitution of the only Court of Appeal, composed of two officers, liable to differ, as lawyers occasionally are, was something worse than unscientific; the rule being that when a judge appealed to a tribunal of which he himself formed half the strength, and his colleague could not agree with him, the man who referred the case carried the verdict."

IT appears that the B. I. S. N. Company's steamer Canara, which had been engaged to convey Portuguese troops from Marmagoa to Quilimane, in order to suppress a rising of the negroes there, had no sooner arrived at her destination than the captain received orders to proceed without delay with the troops to Mozambique, where they were landed. Whilst at Quilimane Mr. O'Neil, the British Consul, and his secretary, who had been reported as missing, were taken on board the Canara and conveyed to Mozambique.

THE other day an up-country paper devoted a considerable space in its editorial columns to a description of the woes and miseries of a backward debtor when importuned by a not over-civil bill-collector, and suggested that, instead of sending peons round, application for payment should be made through the post, declaring at the same time that tradesmen would consult their own interests by abolishing the practice of sending out peons, as it would be more profitable to keep an attorney than a bill-man. A "Shop-keeper" now write pointing out the impracticability of collecting bills through the medium of the post-office. "Customers," he says, "should bear in mind that by paying their bills promptly, they do not oblige the peon who presents the same, but the proprietor and manager of the business in whose pay the peon is; and if the customer has been served to his satisfaction, then nothing but common courtesy demands that the peon should be attended to without unnecessary delay, and that he should not be allowed to hang about the house, or sit *dharna* for hours, only perhaps to be told when to call again." The writer declares that tradesmen prefer to deal with outstation customers, as their transactions are mostly cash, than to hunt up long-standing bills of local "bad paymasters." He adds that if the credit system at present in vogue in India were abolished, and people would only buy according to their means, trade would be brighter, and that there would be little chance of the overland V. P. P. being a success, as people could get their supplies as cheap from the tradesmen in this country, if he were not compelled to put down a large sum in the loss account of his annual balance. We believe thatthe system which the correspondent declares to be impracticable has been very successfully tried by one or two trading firms in Bombay.

A PROTEST has been made by the King of Congo against the contracts lately entered into between Mr. Stanley, as the representative of the International Association of Africa, and the Princes of Pala Bella. The King claims sovereignty over the left border of Zaire, and declares that such contracts made without his knowledge and permission, are an open violation of his sovereign rights, and, therefore null and void. The Princes, he says, have been compelled under intimidation to sign the convention, but he declares that he will not allow himself to be dispossessed of his territory without a formal protest, copies of which have been sent to the King of Portugal and to Mr. Stanley. In connection with this affair we learn from papers received from Portugal that an International Congress will be held in Lisbon to settle the Congo question.

ADVICE TO MOTHERS:—Are you broken in your rest by a sick child suffering with the pain of cutting teeth? Go at once to a chemist and get a bottle of Mrs Winslow's Soothing Syrup. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to the taste, it produces natural quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa. Sold by druggists throughout the world. Mrs Winslow's Soothing Syrup is sold by Medicine dealers everywhere at 1s. 1½d. per bottle. Wholesale by the Anglo-American Drug Company, Limited, 33, Farringdon Road, London.

THE SHRIEVALTY OF BOMBAY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I thoroughly agree with 'A Mahomedan,' in your issue of to-day, when he states that the fact of no Mahomedan gentleman having been nominated to the office of Sheriff since it was created deserves the consideration of the authorities, so as to prevent a show of favour to one race at the expense of another. Since the office of Sheriff was created in 1820 there have been sixty-nine Sheriffs, yet not one of them has been a Mahomedan. This was, no doubt, owing to their lagging behind their Hindoo and Parsee brethren in regard to education. That, however, cannot be laid to their charge now, as of late years they have made, and are making, rapid strides in the cause of education, and no one has taken a deeper interest in bringing this about than the gentleman who has been so often and so favourably named as worthy to be elected by His Excellency the Governor to the honour of Sheriff, viz., Mr. Cumrooddeen Tyabjee.

I observe that "A Mahomedan" states that in some quarters it is alleged that Mr. Tyabjee is ineligible owing to his being a solicitor of the High Court. A Mahomedan" also states that there is at a loss to understand why his calling should interfere with his nomination. I have the pleasure of informing him that this need not interfere in the slightest degree, as there is a precedent, in the case of Mr. Francis Legett, solicitor, High Court, who was Sheriff in 1854, also Deputy Sheriff for ten years previously.

As all the other races have had repeated innings in this coveted appointment, I am sure it would give the greatest satisfaction to the public in general, and be considered one of the best appointments made by Sir James Fergusson during the term of his high office as Governor of Bombay, were he to elect a Mahomedan gentleman as Sheriff for next year.

The other gentlemen named are no doubt, worthy of the Shrievalty, but their community have supplied Sheriffs repeatedly, whereas on no single occasion has a Mahomedan been Sheriff. To pass over the Mahomedans again, after the matter has been so prominently brought before the public, would not be received kindly by most communities.

SURAT.

(FROM A CORRESPONDENT.)

SURAT, OCT. 8.

ON Monday last a large body of the friends and admirers of the late Mr. Lallubhai Keshavlal, Executive Engineer, met at the Raichand Deepchund Girls' School to do honour to his memory and send a letter of condolence to his bereaved widow and relatives. Meer Zoolfeekar Ali Khan took the chair and opened the proceedings by requesting Mr. Utumram Mehtaji to move the first proposition. Mr. Utumram touched feelingly upon the noble quality of self-reliance which raised the deceased—a man of poor pacentage and no influence—to the post of Executive Engineer, the duties of which he performed with singular ability. He then drew attention to the esteem in which he was held by his official superiors in the course of his long career, during which he had served at Belgaum, Poona, Ahmedabad, Broach, Surat, Ratnagherry, &c. Touching upon his private virtues, Mr. Utumram said that he was a kind patron, a sincere friend, and an ardent promoter of the good of his native town, Surat. He was always prepared to extend a helping hand to the poor and the needy. It was a misfortune to Surat that death had cut him off in the midst of his career, just as he had returned there on two years' furlough, full of schemes for the improvement of his birth-place. He was sure all assembled there would join him in the deep regret he felt at such an untimely death. He then proposed that a letter of condolence be forwarded to his brother and widow. Mr. Jagannath seconded the proposition. Rao Saheb Mohunlal Ranchordas then read the draft of the letter proposed to be sent, which was adopted. It was unanimously resolved that the letter should be signed by fifteen of the leading members present, and sent on. The meeting dissolved after a vote of thanks to the chairman.

THE RECENT FLOODS AT SURAT.

THE following Resolution of the Bombay Government has been issued:—

Bombay Castle, 1st October, 1884.

Memorandum from the Commissioner, N. D., No. 3215, dated 19th September 1884—submitting for information a letter No. 3574, dated 15th idem, from the Collector of Surat, who forwards a report on the recent flood in that District; and makes remarks.

RESOLUTION.—His Excellency the Governor in Council is glad to learn from the report of the Acting Collector of Surat that the precautionary measures adopted in consequence of the destructive flood in 1883 have proved very effectual during the recent heavy flood in the Tapti. It appears that the height of the water in the river was 16 feet and only 4 inches below the highest level of the flood of July, 1883, while there was a concurrent heavy fall of rain in the city. Great anxiety was consequently felt for the safety of life and property, but the danger fortunately passed off without any serious results. The Collector states that no loss of life has hitherto been reported and that very slight injury has been caused to buildings in the city, although about 1,000 houses, shops, &c., were under water. The fields and gardens on the north side of the river suffered however to some extent and the approach to the Hope Bridge on the Rander side is said to have been partially washed away. The details of the actual damage done by the flood should be reported for the information of Government.

2. It is satisfactory to observe that under the able supervision of Mr. Lely excellent arrangements were made to timely succour the people in their distress. Communication between different parts of the city and with the outlying villages was greatly facilitated by a dozen light boats, which have been provided by the Municipality for use on such occasions.

3. All the public servants resident in the city appear to have done good work, and His Excellency in Council notices with pleasure the testimony borne by the Collector to the valuable services rendered by Mr. W. H. White, the Executive Engineer, Mr. Henderson, the Police Superintendent, Lieutenant Saulez, Mr. Nanumian, the Municipal Secretary, Mr Zulfikar Alikhan and Rao Saheb Mancharam Ghelabhai, all of whom displayed creditable energy in the prompt adoption of measures for the protection of life and property.

4. A copy of the papers should be supplied to the Meteorological Reporter for Western India in accordance with the orders contained in Government Resolution No. 6504, dated 13th August, 1884.

W. P. SYMONDS,
Acting Under-Secretary to Government.

EXECUTION OF THE OOMERCARRY MURDERER.

EARLY yesterday morning the sentence of death passed by Mr. Justice Hart on Mirza Aga Secunder for the double murder at Oomercarry was executed at the Common Jail. Although during his trial at the Criminal Sessions, and even after the finding of the jury, Mirza maintained that he had not committed the murder, the prisoner during the latter period of his confinement freely confessed his guilt. Nearly four months have elapsed since his arrest, and four weeks have passed since he was condemned to death. At no time during the whole of this period has he exhibited any concern at his own fate. Latterly he has expressed regret that he caused the death of his victims, but he stolidly asserted that the crime was unpremeditated, and declared that upon the mother of the murdered woman the responsibility of all the bloodshed must rest. Being without relatives in Bombay, his sole visitor since his sentence has been a friendly Mogul baker, to whom Mirza four days ago confided his desire to see a moulvi, and the priest was accordingly brought to his cell. The story of the murderer was that the deceased's daughter had been seduced and induced him to go on a pilgrimage to Kerbella, promising on his return to give him her daughter in marriage. When he came back he found the old woman had died, having during his absence married the girl to an elder son of the deceased Mogul merchant named Hajee Mahommed Shuffer Shoostri. Mirza tried in various ways to convey messages to Hajee Bibi, but she paid no heed to them, and no reply reached him. He therefore determined to gain admittance to the bungalow and personally make known his love to her. Climbing over the compound wall during the night of the 25th June, he entered the bedroom where Hajee Bibi and her husband were sleeping. He awoke her, but when she caught sight of him, instead of answering his protestations, she attempted to rouse her husband. Rendered desperate, he stabbed both with a knife he had in his hand, and then made his escape. Ten minutes past seven yesterday morning he was brought out of the condemned cell, and the death warrant was read to him by Mr. A. G. Mackenzie, the Superintendent. His lordship, after doing so, was accompanied by Dr. Hunter and other jail officials. The murderer stepped jauntily to the front, and during the reading of the warrant and its interpretation into his own language he laughed repeatedly. His demeanour was anything but that of a man whose remaining moments might be counted on the fingers of one hand. Nor was there anything in his appearance to indicate that he had been in any way affected by his imprisonment and his approaching execution. Mirza was a fair-complexioned sturdy Mogul in the prime of life, and his plump and rounded features bore out the statement that neither sleep nor appetite had in any way deserted him. As his police guard turned to lead him away, he asked in a light-hearted tone if he might be allowed to speak from the gallows. These had been erected outside the walls of the prison; and mindful of mounting the steps, he at once commenced to shout towards the crowd on the other side of the screen of matting which hid the scaffold from view, but left his head visible from outside. In the course of his hurried exclamations he implored all his Mogul brethren to pray for him. Then repeating the prayer of the dying, he added, "I sacrifice my life for the wife whom I did not succeed in getting. God forgive me. Farewell all!" Meantime the hangman had been adjusting the noose, and as he drew the white cap over the face the murderer was still reiterating his farewells and his prayer for forgiveness. The bolt was drawn, but four minutes elapsed before life convulsive struggles ended, and it could be said that life was extinct. Among the crowd outside there stood under the wall of the jail a small group of Moguls, but no other of his countrymen were visible. In accordance with the man's request, this group had made arrangements for claiming the body, and had in their midst the covered bier for its removal. After hanging an hour the body was made over to them, and, it is to be hoped, consigned to a decent burial. A strong guard of police was posted around the place of execution, but they had little or no trouble, the murderer and his crime being generally execrated.

Mr. Brancer alleged that Mr. Chichgar, while in a tram-car with him, had twice kicked the dog—a valuable animal—in the stomach, and that it was now suffering from the violence. The complainant supported his application by the statement that he cared more for his dog than he did for himself; but this worship refused the summons.

Holloway's Ointment and Pills.—Outward infirmities.—Before the discovery of these remedies, many cases of sores, ulcers, &c., were pronounced incurable, because the treatment pursued tended to destroy the strength it was incompetent to preserve, and to exasperate the symptoms it was incapable to remove. Holloway's Pills exert the most wholesome powers over the unhealthy flesh or skin without deserting the patient from fresh air and exercise, and thus the constitutional vigour is husbanded while the most malignant ulcers, abscesses, and skin diseases are in process of cure. Both Ointment and Pills make the blood richer and purer, instead of permitting it to fall into that poor and watery state so fatal to many labouring under chronic ulcerations.
